

Dover-Foxcroft Climate Action Advisory Committee

Meeting in-person on Monday June 3, 2024 at 9:30 pm at Central Hall Commons

AGENDA

Updates

- Debrief of Earth Day, April 22 Event
- D-F Community Resilience Workgroup Report on Cooling/Warming Center policies (attached)

New Projects

D-F must re-apply to the Resilience Partnership: To maintain active status in the program, every two years communities must:

1. Update Primary Point of Contact information
2. Submit an updated [Community Resilience Self-Evaluation](#)
 1. Where have you made progress? What areas are priorities to address next? What factors over the past two years are influencing your revisions?
 2. Please indicate any changes compared to the original self-evaluation, if possible.
3. Submit an updated [List of Community Actions](#)
 1. We'd like communities to use this opportunity to revisit the list of actions and note any changes in priorities due to new strategies, goals, funding sources, or completed projects. This is a great time to host another community workshop and get resident input on future priorities, but this is not required.
 2. Please indicate any changes compared to the original list of actions, if possible.

Communities will be notified when the reenrollment deadline is approaching. If any of these reporting and progress requirements are not met, the community will be listed as inactive and ineligible for further grants. To reactivate, the community must submit an updated Community Resilience Self-Evaluation and List of Community Actions before the next grant deadline for which you are applying.

Other-

Next meeting-Monday July 1 at Central Hall Commons, 9:30 am
